Mathematics Subject Classification [2010]: for example 53A15

## Introduction ١

تعریف ١.١.

$$\sin^٢ x + \cos^٢ x = ١ \quad (١)$$

گزاره ٢.١. *Proposition insert Please*

لم ٣.١. *lemma insert Please*

قضیه ٤.١. *theorem insert Please*

اثبات. Proof insert Please

١.١ (١)

نتیجه ٥.١. *result insert Please*

corollary insert Please

مثال ١. *example insert Please*

remark insert Please

---

note\*

## Result Main ۲

result Main insert Please  
tables. and pictures insert to commands these Use
